- Figma

## PROFILE

Experienced Software Developer with 3 years of hands-on experience in building scalable web and mobile applications. Strong backend foundation in Java, JDBC, Servlets, JSP, and SQL, along with solid frontend expertise in HTML, CSS, JavaScript, React.js, and Flutter. Currently working on cross-platform solutions using Node.js, RESTful APIs, and Flutter to deliver responsive UI and smooth user experiences. Proven ability to contribute across the full development lifecycle—from backend logic and database integration to modern UI development and API implementation

## WORK EXPERIENCE

**Mangates**                                              AUG 2024 – PRESENT

Software Developer On-Site

- Contributed to the development of the Mountskills website using React.js with responsive design
- Worked on the Mangates web and mobile app, building modules for user onboarding, course tracking, and training workflows.
- Assisted in creating a custom CRM system with lead management and automated workflows.
- Developed a Flutter-based QR code generator app with advanced customization features.
- Automated internal processes using Google Apps Script for survey handling, PDF generation, and email workflows.
- Helped reduce manual HR tasks by automating birthday and anniversary emails.
- Supported the rollout of professional email signatures across teams for consistent branding.
- Implemented location-based features in web and Android apps, including permission handling.

**AppSource Services Private Limited**           SEPT 2021- NOV2023

Java Developer

Big File Cloud :

- Built a cloud storage system for managing large file uploads, downloads, and sharing
- Implemented deduplication, secure distribution, and big file handling
- Designed a scalable key-value store with lightweight metadata support

Smart City Website :

- Developed a web platform for city services like hotel booking, transport, and business info
- Built with Java, Servlets, JSP, JDBC, MySQL and integrated a centralized database
- Designed a user-friendly intranet interface with modular architecture for easy maintenance
